To,

The Secretaries  
Affiliated Units to  
Badminton Association of India

**Sub: Development of Badminton in District / State**

Dear Friends,

All States having District Associations must organize District Championships in at-least 50% of their affiliated Districts before holding the State Championships. It is also desired that Inter District Championships should be held along-with the State Championships every year.

This would further give fill-up to the development of Badminton in the State which will benefit the overall development of the game in the Country. This may please be implemented immediately, if not being done earlier.

With best regards,

Dr. Vijai Sinha  
Hony. General Secretary  
Badminton Association of India
