BLOOD DONATION- A NEW INITIATIVE BY BAI

Dear Members,

Badminton Association of India has achieved glorious heights in terms of excellent performance at the international levels as well as in organizing most prestigious international events in India.

While our endeavor to achieve higher excellence in performance at the world levels would continue vigorously, we felt it is the right time, the Badminton fraternity also started contributing towards the welfare of the society. Donating blood was one of such noble causes which can go a long way helping the needy people and save their precious life.

Due to steep increase in the life threatening diseases as also in number of accidents /disasters, the requirement of blood has gone up manifold.

Considering the value of blood in today's world, the badminton association of Indian in conjunction with the Uttar Pradesh Badminton Association, Babu Banarsi Das Academy and Red Cross Society Lucknow took up initiative to organize a volunteer Blood Donation Camp at the BBD Academy on 27th January 2017 during Syed Modi International Badminton Tournament.

During this camp, a large number of technical officials, managers Coaches including Mr. P Gopichand, the Chief coach of Indian Team and many other members of Badminton fraternity came forward to donate blood. Though we kept the policy of refraining players from this "Blood donation camp" but I appreciate the zeal of Miss Anushka Parikh from Gujrat, who along with her mother insisted to become one of the Blood donor and donated blood for the first time in her life as her long lasting agenda since long.

I would like to convey my deep appreciation and complement one and all who were associated with the organization of this blood camp especially those who donated blood.

I would like to urge all the state Badminton Association and the Badminton fraternity in general to organize such camps in future too during various national /international events and contribute towards this noble cause. I am optimistic that such an initiatives by the Badminton Association of India and its affiliated members would inspire many other sports federation /organization too in times to come.

I also seek and look forward to valuable suggestion in this regards.

(Dr.Akhilesh Das Gupta)
President-Badminton Association of India.

Blood is life. Blood donation initiatives are always a noble cause to society apart from organizing blood donation camps and awareness. One should also have a workshop group of our respective associations to the technological advancement - using about 17 members of in his school should have all of their blood groups listed in it & he has been a volunteer to only being recognized.

Blood is life . blood donation initiatives are always a noble cause to society . apart from organizing blood donation camps and awareness, one should also have a whatsapp group of their respective association members (the technological advancement using right !). Members in this group should have all their blood group listed in it so that blood is available to any / every recipient who requires it in that region.

Over all, a if proper precautions maintained during the camp, such a life – saving mechanism would and should receive enormous support from every aspect of society.

Organizing the blood donation camp with SYED MODI INTERNATIONAL - 2017 is a great initiative by BAI.

Donating blood is really a NOBLE cause. All must come forward to do the same. A big thanks to President of BAI Dr. Akhilesh Das Gupta for being a source of inspiration for other sports Association .

VIJAY DEEP SINGH, INDIAN COACH

It's a wonderful and thoughtful initiative by the badminton Fraternity, as I personally feel being in the medical profession that there are not enough blood banks in INDIA where as people in need of blood every day due to an accident or ailment are increasing. This very step will definitely prove to be a boon to the medical world. Hope this initiative is continued every year in the coming years.
